SMT PROGRAMMER

OBJECTIVE

Looking for engineering position in Process, Production, Manufacturing and Industrial Engineering teams to use my creative ability and make an impact.

AEREA SKILLS

- Good knowledge of all phases, process and production technique of electronic cards.
- Mastery of the principles of industrial maintenance.
- Good knowledge and good experience in programming and operation of the SMT pick and place machines, AOI, printers paste, reflow ovens, paste inspection, conformal coating dispenser.
- Good knowledge of ISO 90001, ESD, and IPC-610 (Acceptability of Electronics Assembly)
- Basic knowledge of J-STD-001 (Requirements for Soldered Electrical and Electronic Assemblies)
- Basic Knowledge of IPC 7711/7721 (Rework, Modification and Repair of Electronic Assemblies)
- Good knowledge in installation of siemens SIPLACE architecture (server, client, traceability service, EDM)
- Computer development (VB.net, VB6.0, C #, JAVA, C ++, WINDEV, PHP, HTML, ...)
- Mastery of computer maintenance (Hardware + Software).
- Management of computer equipment, system and network administration.

Langue:

English : very good command
Frensh : excellent command / highly proficient in spoken and written Frensh

Software skills :

Microsoft Office Pack,
Photoshop,Matlab,autocad,Solidworks,
Offi365,SAP,SHERPA.Gcplace...

Data Bases : Access,SQL, MySQL,...

Operating Systeme and network:

Windows Server,GPO...

Devolopping:

VB.net,VB6.0,C#,JAVA,C++,WINDEV,PHP,H
TML..)

PROFESSIONEL EXPERIENCES

Since 06/2014-to day

Zriba - Tunisia

LACROIX ELECTRONICS TUNISIA, AMONGST THE TOP 10 EUROPEAN EMS.

SMT PROGRAMMER

- Focused on the implementation of continuous improvement for optimal operation of the SMT lines.
- Giving support to the SMT lines, pick and place machines, AOI, printers paste, reflow ovens, paste inspection, conformal coating dispenser.
- Provide solutions on failures and equipment maintenance, as well as program updates and documentation.
- Settings of different platforms SMT machines (Hitachi Sanyo,JUKI, Siemens Siplace,Cyberoptics,Parmi) as well as creating programs in all these platforms, including printers paste, AOI,SPI,conformal coating dispenser,reflow.
- Optimization and balancing of lines for improved cycle times.
- Creating common setups for the optimization and change over.
- Analysis for implementation of new products as well as acquisition of tooling required for future investments.
- Saving and storing the programs, documentation and other changes according with the necessities to keep updated all the information for a future audit.
- Give preventive and corrective maintenance of SMT equipment to keep the equipment in the best status possible.

From 11/2011 to 05/2014

Zriba - Tunisia

LACROIX ELECTRONICS TUNISIA

SMT TECHNICIEN

- Set up, run, and maintain various machines for SMT processing and inspection
- Perform routine preventative SMT machine maintenance.
- Monitor work performance relative to expectations and maintain production workflow.
- Work in a fast-paced environment with fast changing priorities.
- Perform parts inventory duties including counting parts, setup, and operation of SMT reel parts counter.

EDUCATION:

June 2010: Bachelor's Degree in computer systems and software at the Institute of computer science of Mahdia (**ISIMA**).

June 2006: Technical High School Diploma in Nozha Zaghouan school.
