470 South Stone Street  
West Suffield, Connecticut 06093  
(860) 668-7511  
daw55@cox.net

## **SUMMARY**

Extensive experience as a research and development senior technician and group leader, in the field of electronic systems, television, cable and facilities engineering, electro- mechanical sub-assembly, and calibration. Additional experience as a competent safe truck driver, and in the restaurant and entertainment industry. Strengths include ability to implement complex systems engineering projects from concept to completion, coupled with the ability to lead by example utilizing strong organizational skills, attention to details and instituting quality service and products. Excellent customer relations with a very strong customer commitment.

## **EXPERIENCE**

**NorConn, LLC, South Windsor, CT**

**2010-Present**

### Electronics Purchasing Consultant

Guide and support improvement in the electronics procurement field in selection and management of the most effective suppliers. This included, material planning, cost reduction programs, reviewing technical and specification requirements. Research supplier networks for viable suppliers and negotiate specifications and pricing. Work side by side with technical and procurement staff to determine the best suppliers for the short and long term.

**WTIC TELEVISION, Hartford, CT**

**1995-2010**

### News Operations Manager

Responsible for planning and implementing all remote transmissions (SNG/ENG). Engineering, design and management of entire fleet of news vehicles and trucks. Responsible for all ENG/SNG training, coordination of crews during special events and procurement of equipment for news department. Accomplishments include: Design, fabrication, upgrades and project management of SNG and ENG vehicles. News set and photography vehicle design.

**THE ROUNDUP, Southwick,**

**1993-1994**

### General Manager

Operating Country & Western Restaurant and Nightclub. Responsible for overall operation of establishment including, but not limited to, all financial and employment related functions, scheduling and promotion of events, including concerts.

**ABB/COMBUSTION ENGINEERING, Windsor, CT**

**1977-1993**

### Senior Electronic Technician(Group Leader)

#### Electrical Engineering & Technology

Supervisor of groups up to 10 people. Engineering, development and industrial fabrication of in service process and inspection equipment. Operation and maintenance of various types of test equipment required supporting research and development, testing, service and inspection applications. Testing, inspection and service functions at operational nuclear plants. Coordinate efforts with other departments/companies to ensure timely customer service. Research and development accomplishments include:

- o Extensive Cable Engineering and Fabrication
- o Multi Channel CCTV Audio/Video Surveillance Systems
- o Two Channel Closed Circuit Audio Communication System
- o Design and Fabrication of Electronic Circuits and Circuit Boards

## **David A. Waterman**

- o Nuclear Reactor Incore Cable Development and On-Site Testing
- o Nuclear Fuel Consolidation Control System
- o Temperature Compensated Digital Reactivity Computer, used for reactor start-up
- o Welded Tube Sleeving Control System, used for steam generator repair
- o Martin Marietta Liquid Level Sensor System(NASA Titan III Rocket application)
- o SPAR Robotic Arm System(NASA Space Shuttle application)
- o Transducer Installation & Testing and Palo Verde Unit 1 P.V.M.P. Test(7/84-9/84)
- o Combustion Engineering Pressure Transducer Development

### Purchasing Agent

1979-1981

### Electronic & Instrument Development Department

Responsible for procuring electronic related components to support on-demand and stock requests for entire electronics research and development department.

### Mechanical Technician/N.D.T. LEVEL II

1977-1979

### Nuclear Power Systems ED&S Department

Responsible for steam generator/fuel eddy current inspection at nuclear power plants. Extensive development, fabrication and maintenance of equipment used for various N.D.E. testing.

## **ENFIELD AMC & JEEP, Enfield, CT**

**1973-1977**

### Automotive Technician

Automotive technician with National Automotive Institute for Service Excellence(NAISE) certification in all related service areas.

## **EDUCATION**

Connecticut Class B Commercial Driver License with full endorsements.

(clean M.V.R. with no accidents)

Technical Careers Institute, Windsor, CT 1980-1983

Completed a comprehensive electronics/digital/communications technology program

ABB Combustion Engineering - Continuing Education

- o Microsoft Windows 3.1 & D.O.S. 5.0 Workshops - 1993
- o Interpersonal Skills Workshop - 1992
- o Language Skills Workshop - 1991
- o Professional Team Builders - 1985
- o Hydro Products and REES Closed Circuit TV. System Repair Courses - 1983 & 1985  
Troubleshooting and repair of underwater television systems

Suffield High School - 1973

## **OTHER**

Hobbies include motor sports, music, woodworking and travel. I also designed and built my own home, with friends we did all the work ourselves.
