

A-Laser Announces Relocation of Facility to Better Serve its Customers

San Jose, CA – [July 27, 2023] – A-Laser, a leading provider of precision laser cutting and engraving services, is pleased to announce the relocation of its facility from 675 Trade Zone Blvd, Milpitas, CA 95035 to 2047 Zanker Road, San Jose, CA 95131. This move represents an exciting milestone for the company as it expands its operations to better serve its valued customers.

The decision to relocate the facility was driven by A-Laser's commitment to enhancing customer experience, streamlining operations, and capitalizing on new growth opportunities.

With over three decades of industry expertise, A-Laser has earned a reputation for delivering high-quality laser cutting and engraving solutions to various industries, including aerospace, electronics, medical devices, and more. The relocation will enable A-Laser to continue providing cutting-edge services while also expanding its capacity to handle larger projects and accommodate growing customer demands.

This move enables us to optimize our operations and create a more efficient and productive environment. We are excited about the opportunities this brings and the enhanced service we can offer to our valued customers.

The new facility boasts state-of-the-art technology, advanced laser systems, and an expanded workforce to ensure seamless service delivery and maintain A-Laser's commitment to precision, quality, and on-time project completion. By leveraging the latest advancements in laser cutting and engraving technologies, A-Laser remains at the forefront of innovation, enabling customers to achieve their unique design and manufacturing goals.

A-Laser will complete the relocation process by Monday, July 31, 2023. During the transition, the company remains committed to maintaining uninterrupted services for its customers. The new address at 2047 Zanker Road in San Jose will be fully operational and ready to serve clients starting August 1, 2023.
